

Robin's Song

"Equipping people and training them to provide safe, clean drinking water for their communities"

February 2017

Our Purpose:

To make available clean drinking water in areas of great need.

To help people to support themselves with an income from drilling the deep wells.

To show God's love to the people we serve that they may know Him as their personal Lord and Savior.

GOD PROVIDES

The people of Chad have a heart for their own people. Four years ago, Robin's Song and New Covenant Bible Church partnered with the people of the town of Mainane to complete a church building that was four times the size of what they were using. I am happy to report that they have used their church for exactly what it was intended. It is now busting at the seams with whole hearted worshippers. People come from the surrounding areas each week for church and the church is so full that everybody cannot get in and they have to listen from outside. They have really taken care of what God provided and have used it for more than we could have ever dreamed. We have been told that people are getting saved every week.

We have also installed many water wells throughout the area to provide the families with a safe, clean place to depend on their water supply. The wells in the towns are the only place to get water, because Chad is a dry place. When the open wells run dry in the summer because the water table is lower than they can dig, they have no options. They can wait for whatever water happens to seep back into the pit, or they must travel out in search of whatever water they could find. It creates a desperate situation and a sense of hopelessness when you know that you can't provide the basic needs of life for your family.

When we donate to a cause or an organization, we hope that the money will be well spent. We here at Robin's Song are all volunteers. We are engineers and business men with a passion to serve Jesus in this area, so all of the money that you donate goes to drilling wells. We have been planning to purchase all of the tools and equipment for setting up a well drilling business in Chad and drilling a well at the end of January. But all of you gave in a very generous way in December that enabled us to drill three wells instead of one with the new equipment. Esaie Toingar is shown working with the villagers to drill one of the wells in January 2017. That is a fantastic blessing addition - will get an unexpected blessing and they have all of you to thank. We would love to see that continue so that next time we start a well project, we could drill 2, 3, 5...even 10 wells in a single season. So, we ask you to pray about what you could give to Robin's Song in an ongoing basis that will allow us to provide safe, clean water to the people of Chad.

In Christ,

Mark Griffioen
